The number path

Two paths on one page: cut along the dashed line. Each is a straight row of squares numbered 1 to 20, with room for a bean on every square.

THE GAME, FROM THE GRADE 1 BOOK

Play the number path with a grown-up, a lentil each and a penny. Both lentils start before the 1. Take turns: toss the penny, and move your lentil 2 squares for heads or 1 for tails. Say the number on each square your lentil steps on: “seven, eight.” Play until a lentil reaches 20.
